

### **Fact. Fact. Bullsh\*t!**

*Learn the Truth and Spot the Lie on Everything from Tequila-Made Diamonds to Tetris's Soviet Roots—Plus Tons of Other Totally Random Facts from Science, History, and Beyond!*

By Neil Patrick Stewart

#### **What's the story?**

*The male platypus has a spur above the foot in each hind leg that can inject poison produced by a gland in its thigh.*

*Tequila has the precise proportion of carbon, hydrogen and oxygen atoms necessary to create diamonds, so when properly heated it will produce synthetic gemstones.*

*Napoleon was extremely short – even for his time – and experts believe being small in stature is what caused his aggression.*

Think you can spot the fake? Think again! Each entry in **Fact. Fact. Bullsh\*t!** (Adams Media, a division of F+W Media, October 2011) hides one well-crafted fib among a pair of unbelievable truths, and it's up to you to figure out what's fascinating and what's fabricated.

Flip the page to see whether you're right or wrong, plus more info on the true trivia and why you might've fallen for the fake fact. You'll *really* need to know your sh\*t if you plan on correctly calling bullsh\*t!

#### **What does it mean for your audience?**

Trivia lovers will revel in quizzing their pals – and themselves – to put their knowledge to the test and see how good their bullsh\*t detector REALLY is!

From finding the BS among facts about the animal kingdom (The Panda! The Cow!), pop culture (The Moustache! Zombies! Star Wars!), to food (Cheese! The Fortune Cookie!) to Weird Science and more, it's going to be a LOT harder than you think.

#### **Who are the authors?**

**Neil Patrick Stewart** is a writer, teacher, director, and actor who lives in Los Angeles. [Fact.] He's as bald as a doorknob. [Fact.] And at 8 feet, 9 inches, he is currently the world's tallest man. [Bullsh\*t.]
